

Aseptic Pharmaceutical Preparation Program at Oakton

Oakton Community College offers an Aseptic Pharmaceutical Preparation program in partnership with MRxI Corporation. This five-credit, one-semester, course covers the core competencies necessary to safely prepare and deliver sterile commercial and compounded pharmaceuticals. This course meets or exceeds guidelines and standards required by the United States Pharmacopia Form General Chapter <797> (Pharmaceutical Compounding Sterile Preparations). For more information about the course or career opportunities in this field, contact MRxI at 630-541-3600 or visit their Web site at www.mrxicorp.com.
