

Students: wondering what CourseCompass is?

It's a website that allows you to do homework online, take practice quizzes, watch video lectures, use interactive tutorials and more.

Wondering how to use the free access code that comes with your textbook?

- 1) Go to <http://students.pearsoned.com> and register with the CourseCompass access code shrink-wrapped with your text.
- 2) Login at the above URL and find the OCC course that matches yours. Use the appropriate Course ID from the list below.

MAT 045 oakton09390

- 3) Follow the homepage announcements and install the plug-ins on your computer by clicking on the link to run the "MyMathLab Installation Wizard."
- 4) Be sure to explore the "Chapter Contents" or "Course Documents" button where most of the tutorials and videos are found.

Note: Unless your instructor tells you they will be incorporating MyMathLab into their course, these online materials are not instructor specific; they are for your own practice.

Need help? Call MyMathLab tech support at 1-800-677-6337.
