COURSE (CATALOG) DESCRIPTION
This is the first course in the Cisco Networking Academy sequence of four courses. This course introduces networking and general network concepts and builds the fundamental laboratory skills in wiring and testing. The course introduces the seven-layer OSI model and the concepts involved with routing and routing protocols.

LEARNING OBJECTIVES
By the end of this course the student should understand the fundamental OSI layer structure as well and the general function of each layer. The student will achieve basic wiring and cable making skills with knowledge of LAN layout. The student should understand the electrical fundamental of data transmission and how the data moves in the networks.

ACADEMIC INTEGRITY
Students and employees at Oakton Community College are required to demonstrate academic integrity and follow Oakton's Code of Academic Conduct. This code prohibits:

- cheating,
- plagiarism (turning in work not written by you, or lacking proper citation),
- falsification and fabrication (lying or distorting the truth),
- helping others to cheat,
- unauthorized changes on official documents,
- pretending to be someone else or having someone else pretend to be you,
- making or accepting bribes, special favors, or threats, and
- any other behavior that violates academic integrity

There are serious consequences to violations of the academic integrity policy. Oakton’s policies and procedures provide students a fair hearing if a complaint is made against you. If you are found to have violated the policy, the minimum penalty is failure on the assignment and, a disciplinary record will be established and kept on file in the office of the Vice President for Student Affairs for a period of 3 years.
Details of the Code of Academic Conduct can be found in the Student Handbook.

**CLASS POLICIES**
In order to make our class a comfortable and encouraging learning environment for everyone, the following is a set of class policies.

- Please treat other students, lab assistant, and your instructor with courtesy and respect.
- Please be on-time for class. If you are late, enter quietly and find out what you’ve missed from your classmates.
- For the courtesy of others, if you need to take a call, answer the call outside of the classroom.
- You should not be surfing the net during lecture unless you are following the lecture using the on-line materials.
- Do not install any software on the computers in the classroom or the lab.
- Do not change the desktop or any of the default configurations of the computer unless it is part of a lab exercise.
- Any misuse of the equipment or unprofessional conduct will not be tolerated.

**OUTLINE OF TOPICS**
- Living in a Network Centric World
- Communicating over the Network
- Application Layer Functionality and Protocols
- OSI Transport Layer
- OSI Network Layer
- Addressing the Network - IPv4
- OSI Data Link Layer
- OSI Physical Layer
- Ethernet
- Planning and Cabling Networks
- Configuring and Testing Your Network

**METHODS OF INSTRUCTION**
A combination of lectures, lab, and on-line activities will be used to master the material.

**COURSE PRACTICES REQUIRED**
All assigned work must be completed and the Cisco on-line final examination must be passed. Failure to pass the Cisco final exam will keep you from being able to register for the next course in the sequence.

**INSTRUCTIONAL MATERIALS**

**METHODS OF EVALUATING STUDENT PROGRESS**
The following point distribution will be used to evaluate your progress:

- **Quizzes:** There will be weekly quizzes. Each quiz will be given at the beginning of the class period and covers materials covered in the previous lecture.  **300**
- **Labs:** Labs are scheduled on a weekly basis and are due the following week. These labs are designed to reinforce lecture materials. See the Course Schedule for the lab assignments.  **100**
- **Final Lab:** The final hands-on lab will test your knowledge of the materials learned in the lab assignments.  **25**
- **Final Exam:** The Final Exam is a comprehensive exam and it covers chapters 2 through 11.  **75**

**OBSERVANCE OF RELIGIOUS HOLIDAYS**
Oakton Community College recognizes the broad diversity of religious beliefs of its constituencies. The College has embraced a practice of shared responsibility in the event a religious observance interferes with classwork or assignments. Students who inform instructors well in advance of an intended absence for a major religious observance will not be penalized. The instructor will make reasonable accommodations for students, which may include providing a makeup test, altering assignment dates, permitting a student to attend another section of the same course for a class period or similar remedies. Instructors are not responsible for teaching material again.

**DISABILITIES**
If you have a documented learning, psychological, or physical disability you may be entitled to reasonable academic accommodations or services. To request accommodations or services, contact the ASSIST office (635-1658) in the Learning Center (Room 2400 Des Plaines). All students are expected to fulfill essential requirements. The college will not waive any essential skill or requirement of a course or a degree program.

* Consult Registration & Records for deadlines on classes meeting less than 16 weeks.

** Students must make arrangements with individual faculty members regarding deadlines to submit required work for Incomplete (I) grades.

*** Two days to be used for instruction or final student evaluations or culminating course activities. Classes not scheduled to meet on these days and classes which do not meet for the duration of a semester will ordinarily use the last class session(s) for instruction or final student evaluations or culminating course activities.

**** Faculty on campus and available to students at designated times.

The instructor reserves the right to make changes to the syllabus on an as needed basis. Any such changes will be announced in class. If you are not in class, it is your responsibility to find out about these changes from one of your classmates.
# Tentative Topics and Course Schedule

The following is intended to be an accurate outline of the course schedule, but the instructor reserves the right to make modifications dependent upon pace and progress, and potential class cancellations, e.g. snow days.
