

Microsoft Office 2010: Features, Strategies, and Trends

Note that Oakton Community College is now teaching students Microsoft Office 2010, the latest version of Microsoft Office that is a huge improvement over previous versions of Office. It contains many new features that enable users, as well as businesses, to get things done much quicker and much more efficiently.

Here is a link to a Microsoft web page that explains these exciting new features for each Microsoft Office 2010 program:
