

# My Sweet Lady

(By John Denver)

**Cmaj7**                    **Dm**                    **Cmaj7**    **C7**            **F**        **Fm**  
Lady, are you crying? Do the tears belong to me?  
          **C**                                    **Am**                                    **Dm**            **G7 F G7**  
Did you think our time together was all gone?  
**Cmaj7**                    **Dm**                    **Cmaj7**    **C7**            **F**        **Fm**  
Lady, you've been dreaming; I'm as close as I can be.  
          **C**                    **Am Dm**                    **G7**                                    **C**        **C7**  
And I swear to you... our time... has just begun.

**F**                                    **G7**                                    **C**            **C7**  
Close your eyes, and rest your weary mind.  
**F**                                    **G7**                                    **C**            **C7**  
I promise I will stay right here beside you.  
**F**                                    **G7**                                    **C**            **C7**  
Today our lives were joined, became entwined.  
      **Am**                    **E7**                    **Am**                                    **D7**    **G7**  
I wish that you could know... how much I love you.

**Cmaj7**                    **Dm**                    **Cmaj7**    **C7**            **F**        **Fm**  
Lady, are you happy? Do you feel the way I do?  
          **C**                                    **Am**                                    **Dm**            **G7 F G7**  
Are there meanings that you've never seen before?  
**Cmaj7**                    **Dm**                    **Cmaj7**    **C7**            **F**        **Fm**  
Lady, my sweet lady, I just can't believe it's true.  
          **C**        **Am**            **Dm**                    **G7**            **C**        **C7**  
And it's like... I've never ever loved before.

**F**                                    **G7**                                    **C**            **C7**  
Close your eyes, and rest your weary mind.  
**F**                                    **G7**                                    **C**            **C7**  
I promise I will stay right here beside you.  
**F**                                    **G7**                                    **C**            **C7**  
Today our lives were joined, became entwined.  
      **Am**                    **E7**                    **Am**                                    **D7**    **G7**  
I wish that you could know... how much I love you.

**Cmaj7**                    **Dm**                    **Cmaj7**    **C7**            **F**        **Fm**  
Lady, are you crying? Do the tears belong to me?  
          **C**                                    **Am**                                    **Dm**            **G7 F G7**  
Did you think our time together was all gone?  
**Cmaj7**                    **Dm**                    **Cmaj7**    **C7**            **F**        **Fm**  
Lady, you've been dreaming; I'm as close as I can be.  
          **C**                    **Am Dm**                    **G7**                                    **C**
